JOIN EAARS on Facebook

EAARS has a presence on Facebook and you are invited to **JOIN** the page. This is a great media to quickly share news, photos and events that are EAARS related or might be interesting to the members. If you utilize "Notifications" on the EAARS Facebook page, you can receive club updates AS THEY HAPPEN.

To reach the page, please visit **facebook.com/groups/eaars** and **JOIN** the page. You must have a Facebook account to be part of the EAARS group.

EAARS Sunday Night Net

Every Sunday evening at 7pm Arizona time, the EAARS Sunday Night Net takes to the air. Although the net calls on the members of EAARS, we also welcome guests to the net. The net runs the traditional roster of those who check in regularly week after week and are a member of EAARS.

There are four Net Control Operators that run the net every week. Those NCS's are...

Rick Gurk - W8YBM - Show Low - Week 1

Larry Witte - KG7VLN - Sierra Vista - Week 2

Chris Buchanan - N7JND - Tucson - Week 3

Angie Buchanan - N7EMB - Tucson - Week 4

We would like to give a big THANK YOU to the above Net Control Operators who once a month, donates an hour of their time to call the EAARS Sunday Night Net. Thank You All.

The net is ran with the current format:

Open The Net at 7pm
Reads the Preamble
Call for announcements.
Check if any EAARS officers listening.
Run the Roster of regular EAARS members.
Call for EAARS members who checked in the previous week not on the roster.
Call for additional EAARS members.
Call for any guests that are listening.
Call for additional comments.
Close the net.

The above format is used because it works. Many clubs use this format or one similar.

If you are checking in for the first time, give us your name, your call sign, location, and any comments you would like to share. We enjoy hearing about your Ham Projects and what's going on.

The EAARS Sunday Night Net occurs every Sunday at 7pm, AZ time. All are welcomed. Hear you on the air!

73,
Chris N7JND
EAARS Net Manager

Facebook Update

The EAARS Facebook page is really growing! As of this writing, the EAARS Facebook page has 311 members. All members of the page, are Hams! You do not need to be a member of EAARS to join the Facebook page, but you must be a licensed Ham.

EAARS supports both a website and a Facebook page. We understand that everyone is not on Facebook, so the EAARS website at **eaars.com** provides a great deal of information about EAARS and the repeater system.

If you are a member of the EAARS Facebook page, you know there's a lot of information there, including a great selection of files in the file section. This includes maps and other EAARS related information. Of course, traditional message exchanging takes place daily. It's often that questions are asked and answered. We see Hams uploading great cartoons related to our hobby. Upcoming events are always welcome, as well as information on upcoming Hamfests.

If are not a member of the page, you can join the group at **facebook.com/groups/eaars**. You will need to input some information such as, call sign, which is verified prior to access being granted. Feel free to join today.

If you have something for sale, the EAARS Facebook page is a great place to list the item(s). Item will be shown to all members of the group.

The EAARS Facebook page was started a few years back when extra points were given during Field Day. By creating a page, the club would earn the extra points. From that day, the page took off and Hams started requesting access. As stated above, there are 311 members on the page. That's a great number of Hams that gather and talk about Ham Radio and everything it has to offer.

Feel free to jump in there and say HI or start a discussion about whatever Ham related topic you would like to talk about. It's fun and great conversations will always be there.

73,
Chris N7JND

The University of Arizona Amateur Radio Club - K7UAZ

As a member of the U of A Ham Radio Club, I have always been fascinated with what this club has to offer students of the U of A and also the community which has always been part of this great club. If you are familiar with the U of A Ham Club, you no doubt, have visited their Ham Shack in the old engineering building on the U of A campus. The building is located on the northeast corner of Old Main. You can't miss the antennas that reach out from the top of the Old Engineering Building. Just look up.

Sarah Li - K7SLI, who is the current president of the club, keeps this club active in the Tucson area. The club promotes the hobby of Ham Radio by setting up their tent at events happening on the mall. The club participates in many Ham Radio contests including Field Day and special college contests and many more.

Many times, you will see the club members on the roof working on antenna projects. The club recently had gone through some major antenna upgrades, along with shack upgrades. The shack is located on the 3rd floor of the building with a window looking out towards the west. They promote Shack Nights where members gather and talk Ham Radio and do projects in the shack. It may be educating members on basics, like learning to solder or simply playing radio.

The shack also houses the U of A VHF FM repeater which can be found on 146.96 -600 with a tone of 127.3. Their Echolink node number is 363148. Tune in and say HI.

More information on the U of A Ham Radio Club, can be found at... k7uaz.com

K7UAZ members had a fun time learning about the club's HF station and satellite station at Shack Night! Members also got a chance to compete in the 2023 NA Collegiate Championship for SSB!

Introduction To Vanity Call Signs W5TI - VEC

<https://www.w5yi-vec.org/index.php/introduction-to-vanity-call-signs>

A first time licensed Technician Class amateur initially receives a sequentially issued 2-by-3 format station call sign. 2-by-3 means the call sign has two prefix letters, one numeral and three suffix letters ...such as KA7XXX. You don't get to choose the call sign.

Once you have been assigned a call sign you can trade it in for a specific 1-by-3 format call sign meaning one letter, either K, N or W, one numeral - zero through nine and three suffix letters of your choosing under the new Vanity Call Sign System. A few "N" calls are available.

Technicians and General Class amateurs also may select a new 1-by-3 call sign. (Read the Vanity call sign Frequently Asked Questions at the above website.)

A very good Vanity call sign search resource is RadioQTH.Net located at: www.radioqth.net. This website lists immediately available, soon to be available call signs and predicts filing winners based on filed applications for any given call sign. We can do all the research for you ! Just provide us with the calls that are acceptable to you on your application and we will contact you with what is actually available for assignment based on your class of license.

Advanced Class and Extra Class amateurs qualify for even shorter call signs. Advanced can choose any available 2-by-2 call sign beginning with KA-KZ, NA-NZ or WA-WZ. Extra Class qualify for available 1-by-2, 2-by-1 and 2-by-2 call signs beginning with AA-AK. (Read the Vanity call sign Frequently Asked Questions.)

Let your call sign lapse and lost your call sign during the last 2 years? If your old call sign has not been re-issued, the chances are good that you can get it back ! And we may be able to document that you did indeed hold a particular call sign if you do not have evidence. (Read the Vanity call sign Frequently Asked Questions.)

We can help! Anyone can change their call sign at any time. The format of the call sign you qualify for is determined by your license class. The higher your license class, the shorter the call sign you are able to obtain. (Read the Vanity call sign Frequently Asked Questions.)

Sponsored by the

Oro Valley Amateur Radio Club

This class will prepare you to take the FCC entry-level amateur radio license examination. After the class, American Radio Relay League certified examiners will administer your test. Soon after you will be on the air!

When: Tuesdays commencing April 4, 2023, and ending on May 9, 2023. Each meeting is from 6:00 PM to 9:00 PM.

Where: Pima Community College, 7600 North Shannon Road. Handicap parking and elevators available. A map will be provided.

Class Fees: \$25. After the class, the ARRL examination fee is \$15.

Required Course Book: The ARRL Ham Radio License Manual. The ISBN is 978-1625951557. The book may be purchased from [Amazon.com](https://www.amazon.com).

Enrollment: To enroll in the course contact licensing@tucsonhamradio.org. Provide your name and contact information.

To be successful in the course, you will need to read and study outside of class hours.

For more information and directions to the class go to our website: <https://www.tucsonhamradio.org/tech-license-classes>

Other Club Stuff

From Diane AA3OF: RST VE Testing will be held at Immanuel Presbyterian Church, Witherspoon Hall, 9252 E 22nd St, at 7pm.

2023	March 13	Apr 10	July 10	Oct 9
		May 8	Aug 14	Nov 13
		June 12	Sep 11	Dec 11

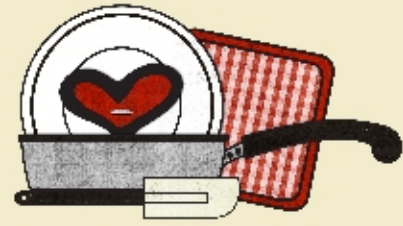

If you live in the Graham or Greenlee County and are interested in a VE Testing Session, please feel free to contact Dan Quaintance AF7EF, (928) 235-1152.

Cooking up
Some Magic

Black Pepper Beef and Cabbage Stir-Fry

*Maybe a good recipe for
a St Patrick meal?*

Ingredients

- 2 tablespoons vegetable oil
- 4 cloves garlic, chopped
- ½ pound ground beef
- ½ small head cabbage, shredded
- 1 red bell pepper, cut into strips
- 2 tablespoons soy sauce
- 1 teaspoon cornstarch
- ½ cup cold water
- 1 teaspoon ground black pepper, or to taste
- 1 pinch salt, to taste

Courtesy of allrecipes

*Prep Time: 15 mins
Cook Time: 15 mins
Total Time: 30 mins
Servings: 4*

Directions

Heat a wok or large skillet over medium-high heat, and add oil. Saute garlic for about 5 seconds, then add ground beef. Stir-fry until beef is evenly brown, 5 to 7 minutes; drain excess fat.

Stir in cabbage and pepper, and cook until vegetables are tender and beef is fully cooked. Stir in soy sauce. Mix together cornstarch and water, and stir in. Season with pepper; add salt to taste. Cook, stirring, until sauce has thickened.

Happy St Patrick's Day!

kiss the
